**The Single Children's Plan
 What it means for you**

Background

The introduction of the Single Plan for Children and Young People's Services is one of the most significant developments in planning in recent years. For the first time a single document holds the priorities for all services and these priorities are clearly laid out against the Welsh Assembly Governments 7 Core Aims giving the plan a real edge as it brings together local and national objectives.

We welcome Geraldine Murphy to speak at the event who was responsible for drawing together the groups who came up with the priorities that are now out for consultation.

This will be a single issue event, (please note the late start) with the opportunity to discuss the plan and its impact on the voluntary sector. There will also be the opportunity to have your comments included in a generic sector response to the consultation.

The Spring Event

It has been agreed that the programme for the 22nd May include:

- Presentation from Geraldine Murphy
- Workshops for participants to discuss the Single Plan

Within the day there will be opportunities for:

- Networking
- Sharing information on new voluntary sector initiatives
- Highlighting the work of groups through displayed material

This is an opportunity for a meaningful gathering of the sectors groups who work with children and young people, together with key officers of the statutory agencies — so please circulate the details of the day to colleagues.
