

Adobe Contribute CS3

The CVC Circuit Riders project provides friendly and informal workshops on a range of information and communication technologies.

The aim of the 123-communicate programme, one of the Circuit Rider activities, is to assist voluntary groups and community organisations to communicate more effectively.

What is Adobe Contribute CS3?

Adobe® Contribute® CS3 software enables anyone to quickly and easily update existing websites and blogs. With Adobe Contribute CS3, content authors can post and publish content to multiple websites and blogs from a single application or publish directly from within Microsoft Office applications. Website administrators can reduce their workload by distributing work among content contributors or designated website editors. And because Adobe Contribute CS3 works seamlessly with Adobe Dreamweaver® software, website integrity is maintained—even when multiple authors update content across the site. (*Manufacturer's Description—Adobe*)

Download Free trial

For a free one month trial go to the link below and select "Download free trial" in the Contribute CS section.

<http://www.adobe.com/uk/products/contribute/>

Adobe membership is free and registration only takes a minute.

As an Adobe member you will then have access to trial downloads.
